DK: Fastgørelse af stolper på fliser/fundament eller trækonstruktion.

I begge tilfælde SKAL fundamentskruerne ned og have fat i underkonstruktionen.

(Boltene monteres løst, så stolpen kan give sig lidt. Spændes fast, når pergolaen er helt samlet.)

SE: Fäste av stolpar på plattor/fundament eller träkonstruktion.

I båda fallen MÅSTE fundamentskruvarna gå ner och fästa i underkonstruktionen.

(Dra åt skruvarna löst, så att det går att vicka lite på stolpen. Dra sedan åt dem helt när pergolan är färdigmonterad.)

DE: Befestigung von Pfosten an Betonplatte/Fundament oder Holzkonstruktion.

In beiden Fällen MÜSSEN die Fundamentschrauben unten bis in die Unterkonstruktion greifen.

(Die Bolzen werden lose montiert, damit der Pfosten etwas Spiel hat. Sie werden festgezogen, wenn die Pergola vollständig montiert ist.)

UK: Fastening posts to tiles/foundation or wooden structure.

In both cases, the foundation screws MUST go down and engage the substructure.

(The bolts are installed loosely so that the post can give a little. Tighten when the pergola is fully assembled).

FR: Fixation de poteaux sur des dalles/des fondations ou une construction en bois.

Dans les deux cas, les vis de fondation DOIVENT être vissées suffisamment profondément pour attraper la sous-structure.

(Ne serrez pas trop les boulons de sorte que le poteau ait un peu de jeu. Serrez-les une fois la pergola complètement assemblée.)

* Beton forbores med Ø8 mm bor og træ forbores med Ø7,5 mm bor.

* Betong förborras med Ø8 mm borrh och trä förborras med Ø7,5 mm borrh.

* In Beton muss mit 8 mm vorgebohrt werden und in Holz mit 7,5 mm.

* Pre-drill concrete with Ø8 mm drill bit and pre-drill wood with Ø7.5 mm drill bits.

* Le béton est pré-percé avec un foret Ø8 mm et le bois est pré-percé avec un foret Ø7,5 mm.

DK: Vigtigt at kontrollere krydsmålet inden stolperne skrues fast.

SE: Det är viktigt att kontrollera kryssmättet innan stolparna skruvas fast.

DE: Es ist wichtig, das Kreuzmaß zu überprüfen, bevor die Pfosten eingeschraubt werden.

UK: Important to check the cross measurement before screwing in the posts.

FR: Il est important de vérifier la mesure transversale avant de visser les poteaux.

DK: Sådan placeres overliggerne.

Skrues løst sammen med hjørne beslagene og løftes forsigtigt samlet på plads. (Samles med stolperne).

SE: Hur man placerar överliggarna.

Skruva löst ihop med hörnfästena och lyft försiktigt monteringen på plats. (Monterad med stolparna).

DE: Wie man die Stürze anbringt.

Schrauben Sie die Eckwinkel lose zusammen und heben Sie die Baugruppe vorsichtig an ihren Platz. (Zusammengebaut mit den Pfosten).

UK: How to position the lintels.

Screw loosely together with the corner brackets and carefully lift the assembly into place. (Assembled with the posts).

FR: Comment positionner les linteaux.

Visser sans serrer les supports d'angle et soulever avec précaution l'ensemble pour le mettre en place. (Assemblé avec les poteaux).
